

## School Board Member – Category: Staff Member

Term: 07/03/2018 – 07/03/2019

Hi I am Brenda Broad Junior Science Teacher and I have taught at Comet Bay for over eight years. I have a dedication to the importance of a top quality education which is geared towards catering for all learning styles. Having worked at numerous schools I have a broad understanding of primary education across a diverse range of areas. I have been both a classroom and specialist teacher which has developed my appreciation for different roles within the school. Past extra roles to my teaching have included being team leader and for several years I have been the Occupational Safety and Health Representative for the school.

Comet Bay Primary School has afforded me the opportunity to further develop my skills, best practice, understanding of student diversity and visible learning. I am a parent of three grown up children and four grandchildren, therefore I feel, I am able to view teaching from the inside as a staff member and the outside, as someone who brings the sorts of priorities that are embedded in parents and the community. I am proud of the achievements of Comet Bay Primary School and excited to be given the opportunity to be involved in the governance of the school.

Brenda Broad
