

## Junior House Carnival

On Friday September 11, junior students cheered loudly and participated proudly at the Junior House Carnival. Spectators soaked up the active atmosphere and warm sunshine with our superstars, and were impressed by the strong attentive listening skills and the wide range of fundamental movement skills on show.

Again, thank you to our giant of a groundskeeper, Mr Carter, for his help before, during and after the carnival. Another big appreciation goes out to the teaching and administration team led by Mr Watson, for making the day safe, fun and magical. Thanks also to over 40 senior student helpers fulfilling countless key roles. Many of these helpers left a lasting impression in the minds of junior students and teachers alike, by being superb role models and making the day special for their junior counterparts.

In the end, reigning champions Fire were able to fend off two Houses prior to lunch, establishing a convincing gap with only two team games remaining. Yet Earth remained resolute after building a small lead before the break, and as the action and weather heated up, Earth kept their cool to capture the shield for only the second time in their junior history!

Congratulations Earth! You have done it again and can now enjoy being the current Junior House Carnival champions!

Thank you to Fire, Sun and Water for motivating our new champions and each other to deliver individual moments of brilliance and countless fantastic team performances.

The final results courtesy of Team Thompson, were as follows:

Position	Points	House
1 <sup>st</sup>	485	EARTH
2 <sup>nd</sup>	435	FIRE
3 <sup>rd</sup>	365	WATER
4 <sup>th</sup>	310	SUN

Terrific effort to all from Mr G.
